

CAMP HOMEMADE DIY FISHING GAME

Relax with a reel. Here's the step-by-step actions to make your own fishing game right in your own home!

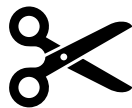

You will need a few materials to start:

FISH PRINTABLE

SCISSORS

PAPER CLIPS

YARN

DOWEL ROD

STEP ONE

Print and cut out the fish. Save the scraps!

STEP TWO

Pair two of the fish pieces together then punch holes around the fish. Starting at the nose of the fish, lace them up with the yarn (keep a few holes unlaced at the end)

STEP THREE

Stuff fish with scrap paper, then lace shut with yarn, tying a loop at the nose.

STEP FOUR

For the rod, open a paper clip, and make a hook shape. Then tie the hook to a lengthy piece of yarn.

STEP FIVE

Finally, tie the other end of the yard to one end of the dowel rod. Then start catching fish with your new fishing rod!
